

In order to facilitate any question that may arise during your stone selection and installation process, Artistic Stone Products has compiled this list of questions and answers.

Q. How durable is Artistic Stone Products?

Artistic stone is stone. It is made from Portland cement, natural aggregates and pigmentation. Once installed it is virtually impossible to distinguish it from natural stone. No synthetic foams, resins or plastics are used.

Q. Is Artistic Stone color fast?

Unlike other manufactures stones, Artistic Stone achieves the majority of its overall color through a substantial base pigmentation. This assures that there is color through the entire stone structure. Artistic Stone will weather like natural stone. It will even grow moss.

Q. Do you have a warranty?

Our limited warranty is 50 years from original purchase date to the original owner. This covers manufacturer's defects in material and workmanship. Company will replace same without charge, exclusive of labor.

Q. What is the maintenance for your stones?

Occasional rinsing when necessary will remove surface dirt. We do not recommend using abrasive cleaners or pressure washers for this may damage the stone. Artistic Stone Products are virtually maintenance free.

Q. How do we know when mortar mix is right? What type of mortar should I use?

- mix 7-8 shovels of sand to 1 bag of cement
- Use type S Portland

Q. How many bags of cement do I need?

Use 3-4 bags per 100 square feet.

Q. How do you cut the stone?

There are a few tools which may be used, such as: Trowel, chisel or masonry saw.

Q. Can I glue manufactured stone?

It is not recommended that any type of glue be used as it will void the manufacturer's warranty.

Q. What type of stone is right for my home?

Visit your local Distributor. They can show you the stone styles within your region.
